

# VacuEasylift 4681 recycling

Project number: 4681  
Project supervisor: Paul van de Voorde, ATS Robotics Belgium  
Project engineer: Mikael Kayser  
Lifting: Recycled computer screens and TV's  
Max capacity, this project: 50 kg, vacuum lifter VacuEasylift VM140

A circular, bellow style suction cup diameter 250 mm, art nr 4681 lifts recycled hardware. Together with an angle adapter the recycled items can easily be picked up from top or side. The crane bridges are supported in column mounted FIXED jibs. This solution offers minimum interference in the working area.
